

## **Neonatal On-Line Education (NOLE) CEU Information**

### **Course Description:**

The Neonatal On-Line Education (NOLE) is an evidence-based, clinically applicable, on-line education solution for all NICU staff. It will improve your understanding of the developing premature infant and the significant impact the environment and a variety of caregiving activities have on the infant and family. For example, brain and sensory development, positioning, parent attachment, and the effect of opioids on the mother-infant dyad are explored in detail. It includes 8 on-line, pre-recorded webinars learner can watch from the comfort of their own home.
